DAY 07 KENNEDY SPACE CENTRE [KSC]

After breakfast proceed to the Kennedy Space Center located on the East coast of Florida, approximately midway between Jacksonville and Miami. The Space Center represents an amalgamation of technology and nature. In 1975 nearly half of the space center was designated by Congress as the Canaveral National Seashore, a part of the Merritt

Island National Wildlife Refuge. Arrive at the KSC where Students team-up as they are presented with NASA engineering challenges. All engineering builds are based on science, technology, engineering, and mathematics components.

- ✔ Multi-purpose Crew Vehicle (MPCV) in tandem with Apollo Saturn V Center, Apollo Era, and future NASA manned-flight spacecraft.
- ✔ Truss Build – Innovative space and earth architecture incorporated with engineering design process.
- ✔ Air Rockets – Educators lead students through the science of rocketry, propulsion and Newton's Laws as each student constructs, then launches, their own air rockets.

Evening Leave from the KSC and proceed for a fun shopping time at the Florida Mall. Back to hotel for dinner & Overnight in Hotel

DAY 08 KENNEDY SPACE CENTRE [KSC]

Instructor Led Tours:

- ✔ **Rocket Garden and Early Space Exploration Tour** – Educators introduce the concept of space travel by guiding students through the early years of NASA. Students encounter and photograph the actual rockets, spaceships spacecraft and spacesuits from the Mercury, Gemini and Apollo programs while hearing stories of our early space heroes. Students can climb into and take pictures of full-scale mock-ups and take pictures of the early space capsules found throughout the Rocket Garden.
- ✔ **The Apollo Saturn V Center** - Students are transported aboard a KSC bus to the spectacular Apollo/Saturn V Center where dramatic multi-media shows and numerous hands-on displays provide visitor with an inspirational and exhilarating look into America's quest for the moon. Students relive the historic launch of Apollo 8 at the Firing Room Theater, then marvel at a monstrous 363-foot long Saturn V moon rocket. Finally, the Lunar Theater provides a rare look at the harrowing final moments before man landed on the moon.
- ✔ **Educational Tour** –The students follow the path the Shuttle takes as it exits the Vehicle Assembly Building (VAB) onto the crawler way on its journey to Launch Pad 39A. Students also have the opportunity to view the Shuttle Landing Facility, site of the shuttle's return home to the Kennedy Space Center.

Activities:

- ✔ **Astronaut Hall of Fame** - Students enjoy a guided tour of the Astronaut Hall of Fame. They will view spaceflight memorabilia, space-related artifacts, and an actual Mercury spacecraft and Gemini Training spacecraft. They will also experience a variety of hands-on activities in our Simulator room. On our Education Training Floor, students will experience the thrill of motion-based astronaut training simulators modeled after those used to train for the Mercury, Gemini, Apollo, and Shuttle Programs. This *may* include the Multi-Axis trainer, Micro-Gravity Wall, and T-Chair (trajectory).
- ✔ **Meet and Greet with an Astronaut** - Students meet an actual space explorer, who will talk about the future of space exploration. Students are encouraged to ask questions and later they receive an autographed souvenir from their astronaut guest.

Evening Visit the Coco Beach for some games and entertainment. Back to hotel for dinner & Overnight in Hotel

DAY 09 KENNEDY SPACE CENTER (NASA)

Venue Opportunities:

- ✔ **Explorers Wanted** – Students are immersed into an environment of discovery and exploration where multimedia presentations display what the future of space travel may look like, emphasizing that space exploration is not just about the hardware, but about the people behind the technology that make it all possible.
- ✔ **Shuttle Launch Experience** - Students "Get Vertical" as they ride the Shuttle Launch Experience; it is an authentic flight simulator designed to replicate the thrill of launching into space aboard the Space Shuttle.

- ✦ **IMAX** - In two giant IMAX theaters, the dream of spaceflight comes alive to students with a wall of sound, a five-story screen and realistic 3-D special effects. Dramatic footage shot by NASA astronauts during actual missions allow students to feel like they're floating alongside them. Hubble 3-D is the newest film with images shot directly with the Hubble Telescope.
 - ✦ **Robot Scouts** – Students learn from trailblazers for the human experiment as robotic probes talk about their interplanetary exploits
 - ✦ Graduation and closing ceremonies - Campers are awarded certificates of completion.
- Evening Shopping at Wal Mart. Back to hotel for dinner & Overnight in Hotel**
